Now, **Spiral Coiling, Wire-O**, or any other kind of punching jobs can be done **fast, precise and at prices that just can't be beat!** Furthermore, unlimited flexibility and possibilities will give you the service you need.

For example, Spiral Coil holes can be punched in 4:1 and 5:1, Wire-o in 3:1 or 2:1 and Cerlox, all at rates of up to a 1,000,000 sheets in a single shift. **That's 1,000,000 sheets in 8 hours!!** Holes or other designs can be punched virtually anywhere on the sheet with sheet sizes as small as 3 ½" x 4" and as large as 18" x 21". We can even punch books with index divider tabs already inserted into them and punch through any stock. Dies can be fitted that will cut any design or pattern such as windows, door hangers or even index divider tabs. No job is too small or too large for this amazing machine. Set-up is quick and the precision is perfect. Punched stock can then be spiral coiled at speeds of up to 750 books per hour. With 6mm to 35 mm coils, available in any color or gauge, rapid production is assured with our new Auto Coiler.

What's more, we also plastic laminate. We can do any size run, all kinds of stocks and sizes, single or double sided with stay flat films are available in gauges from 1.1 mil to 10 mil, matte or gloss, PET or nylon. Furthermore, we also manufacture index divider tabs that include printing, Mylar (clear or coloured), die cutting, three-hole drilling and reinforcing as well as inserting and collating. We'll even handle all of your cutting requirements limiting your worry to only printing your text - and we'll do the rest! You just can't have it easier, safer and faster than letting **Alberta Book Bindery** handle your job.

Just a reminder, don't forget about our excellent perfect binding service. We do it all. Collating, inserting, tipping, laminating, scoring, trimming, shrink wrapping and much more. For example, all kinds of sewing and stitching can be combined with perfect binding for those special or tough jobs. Cleat cutting and cleat sewing are exclusive to **Alberta Book Bindery** giving amazing strength to stiff or coated paper stock. Smyth sewn/perfect bound make for indestructible and lay flat books. Our high output auto feed Smyth sewing machines can sew up to 7,800 signatures per hour, handling even the biggest jobs so we can provide fast turnaround and handle jobs of almost any size.

The biggest feature of all is our high quality workmanship. You're assured solid binding, precision centering of spines and precision trimming without chipping or crushing of the spines with only minimal make readies. Stocks to be bound can be supplied in singles sheets (pre-collated), 8, 12, 16, 24, 32 or 48 page signatures with perforated spine folds or bursted spines. If you prefer, we'll even do the folding for you.

Once again, we're offering a binding service that has it all, and on time - all while saving you time & money and giving you peace of mind. Just pickup the phone and call one of our representatives for free consultation or a quote, fax us at 437-1246 or e-mail us at abb@albertabookbindery.com.

Remember, if quality and reliability matter, give us a call.
